## Event Sponsorships

The MOST's STEM Under 40 Awards are a special event recognizing contributions to STEM fields from 20 professionals under age 40 across Central New York. With CNY gaining recognition as a growing STEM region, this new award celebrates the next generation of leaders in science and technology fields. Nominees include individuals in a wide range of professions, including K-12 and higher education, manufacturing, healthcare, science, engineering, architecture, computer science, and more. A panel of STEM professionals serving on the boards of the MOST will review the entries and select the award recipients. Twenty winners will be recognized in an awards ceremony at the MOST on Thursday, November 5.

"The MOST is dedicated to sparking a love of learning and technology from a young age. These awards celebrate the accomplishments of young professionals in STEM fields and recognize the value and impact that they have on the world around them. With our partner Micron, we are excited to honor these young STEM leaders and celebrate their achievements. The recipients are role models for the students visiting the MOST today as they think about what they can achieve in the future." - MOST President Lauren Kochian
