Thank you!

Welcome to the Milton J. Rubenstein Museum of Science & Technology's 26th annual Savoring Science! Your support ensures that exhibits stay engaging and up to date, STEM education and outreach programs remain free to students, and we can continue to make improvements to the 115-year-old Armory we call home.

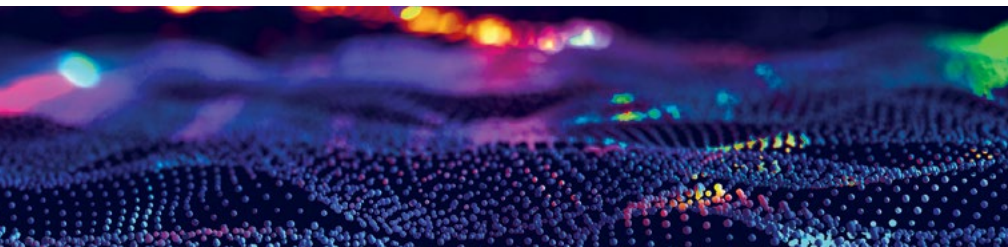

Be sure to check out our exciting online and live auction items before we walk over to Lemon Grass to dine on the exquisite cuisine prepared by Max Chuthintranond, exclusively for the MOST.

There are so many to thank for this evening, including our presenting sponsors Usherwood Office Technology and Alan Byer Volvo, the MOST Board of Trustees & Foundation Board, and all of tonight's attendees. By joining us tonight, you're showing that you value the importance of informal science education programs and exhibits for our community and our future.

Enjoy this evening—we'll see you soon for TAP into the MOST, presented by Danna Plumbing, on Friday, the 11th of September. Thank you!

Lauren Kochian
